Subject: Launch of One-Day Workshop on Generative AI Tools and Applications

Dear Students,

The Department is pleased to announce a one-day hands-on workshop titled "Generative AI Tools and Applications", designed to introduce undergraduate engineering students to the rapidly evolving landscape of generative artificial intelligence.

The primary objective of this workshop is to provide participants with a practical understanding of modern AI tools used for content generation, automation, productivity enhancement, and problem-solving across engineering domains. The session aims to bridge the gap between theoretical concepts and real-world AI applications.

Workshop Details:

Date: 26th January 2026

Time: 9:00 AM - 4:00PM

Mode: Hybrid

Key topics covered include:

● Fundamentals of Generative AI
● Prompt engineering techniques
● Use of AI tools for text, image, and code generation
● Ethical considerations and responsible AI usage
● Real-world applications and case studies

Interested students are required to register using the link provided below. Registration is mandatory, and seats are limited.

Registration Link: [Insert Link]

For any queries, please contact:

Coordinator Name: [Insert Name]

Email: [Insert Email ID]

Phone: [Insert Contact Number]

We strongly encourage interested students to participate and gain hands-on exposure to cutting-edge AI technologies.

Warm regards,

[Your Name]
